THE CONCEPT BEHIND MARÈ

The design idea is to create central spaces with water features and green areas for walking and social life, reduce motorized traffics paths and cars , and make car paths wrap around housing zones without penetrating the internal spaces, with each unit having equal accessibility and overlooking the central view, creating a sense of privacy and connection at the same time.

The view representing a complete and wide ranged compound with all services-facilities in one place where the residential units exists.

LANDSCAPE DESIGN

THE FUN AREA, OPEN-ACCESSIBLE AREAS ARE THE KEY FOR SUCCESS IN ANY PLACE! AND WHERE YOU'RE LIVING SO IT'S SO MUCH FUN AND COMFORTABLE. THAT'S WHERE THE FUN CITY EXISTS.

RESIDENTIAL UNITS OVERLOOKING ON A WIDE RANGE OF GREENS, AS FRONT-YARD, BACK-YARD AND THE SITE SKYLINE TO ACT LIKE A SEPARATE UNIT FROM THE SURROUNDINGS.
